Examiner's Amendment

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Claims 1-5 and 12-26 have been cancelled for being drawn to non-elected inventions and/or species.

Authorization for this examiner's amendment was given in a telephone interview with George C. Beck on November 9, 2007.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance: No reference was found anticipating or a combination of references found making obvious a testing system as set forth in claim 6 wherein the salient feature is a coolant flow control system coupled to said active temperature control devices, said coolant flow control system being configured to individually regulate the flow rate of coolant through each fluid-cooled heat sink.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
